

Clearing Implants and Restoring the Soul's Blueprint"

Understanding Energetic Implants

Implants are not natural to the soul's design. Unlike imprints (which are stored traumas, shocks, or emotional wounds carried in the cellular memory), implants are **foreign distortions** — often appearing as energetic parasites, metallic chips, or dense blocks lodged in the organs, chakras, or energy field.

In my healing work, I have encountered implants in the pineal gland, blocking the third eye, in the throat chakra silencing healers who use their voice, and even in the ovaries, suppressing creative and feminine power. These implants are often tied to karmic contracts and placed by external interference (including reptilian and other controlling energies).

When removed, the body may go through a temporary release — inflammation, physical detox, or vivid dreams. For example, one client had an implant blocking her pineal gland, after clearing, she experienced inflammation between her eyebrows for three weeks, followed by the opening of her third eye. Another healer had an implant in her throat chakra, which was removed, restoring her ability to use her voice for healing.

This is why implant clearing must be done with reverence, sacred preparation, and divine support.

Preparing for the Clearing

Before beginning the prayer and protocol, create a sacred space:

1. Create a Sacred Space

- Sit in a quiet place where you will not be disturbed.
- Light a candle, play soft music, and clear the energy with sage, palo santo, or your preferred method.

2. Open the Akashic Records

- Say the Sacred Opening Prayer.
- Invite your guides, masters, and angels to assist you.

3. Ground and Connect

- Visualize roots of light extending from your feet deep into the Earth, anchoring you.
- At the same time, open your crown to the Infinite Source above, feeling the flow of divine energy through your whole being.

4. Visualize the Sacred Geometry of Infinite Love around you

- Imagine yourself sitting in the center of the Sacred Geometry of Infinite Love.
- See yourself surrounded by the 12 Guardian Angels and the 16 Ascended Masters, holding you in perfect safety and light.

Implant Clearing Protocol

Take a deep breath, place your hand on your heart, and read the following prayers slowly. **Feel the words, feel the energy, remain in peace, and allow the light to flow.**

✨ Invocation & Release

“I (Your full name) From the Infinite Source of Love, through my highest self and divine authority,

call now the divine light to help me to release all implants, distortions, and energetic parasites within my body, mind, and soul.

Across all timelines, dimensions, and realities,

I revoke every permission that allowed these implants to exist.

I surrender them fully into the Violet Flame of transmutation.

They are dissolved in love.

I am sovereign. I am free.”

(Pause, breathe, allow the energy to work through you. Feel the implants loosening and being carried away by the violet fire.)

✦ **Transmutation**

*“Beloved Archangel Zadkiel, Keeper of the Violet Flame,
I call upon your light to purify every cell, organ, and layer of my being.
Burn away every residue and distortion these implants have left behind.
Restore my field in unconditional love,
cleansed, renewed, and whole.*

It is done, it is done, it is done.”

Take 3 deep breath and feel the energy moving through your body.

✦ **Restoration**

*“Beloved Archangel Metatron, surround me with your Cube of Golden Light.
Restore my body to its original perfect health design.
Anchor the sacred geometry Metatron cube around me
weaving innocence, truth, and freedom through every cell.
I am restored to my original perfect Health design.*

It is done, it is done, it is done.”

Take 3 more deep breath, feel your body being covered with golden light, your aura is sealed in light you are protected and loved.

✦ **Affirmation**

*“I am sovereign. I am whole. I am Infinite Love embodied.
No distortion, implant, or interference has power over me.
I walk in perfect freedom and divine authority.”*

✦ **Gratitude & Sealing**

*“Thank you, Beloved Source, Archangels Zadkiel and Metatron,
my Guardian Angels, and Ascended Masters and Loved ones,
for your presence and healing light.
This clearing is sealed in Infinite Love, grounded through my body and soul.
It is done, it is done, it is done.
Amen, Amen, Amen.”*

Integration & Grounding

- Place both hands on your heart and breathe deeply.
- Visualize roots extending into the Earth, grounding the new frequencies into your body.
- Drink a glass of water and rest in silence for a few minutes.

Repetition & Completion

- Repeat this entire protocol **three times in one sitting** (body–mind–soul alignment).
- Perform it once a week for **21 days** (for example, three consecutive Sundays).
- After 21 days, open your Records and ask:
 - 🌿 “Have all implants been fully cleared?”
 - 🌿 If yes → trust the process and continue your path in freedom.
 - 🌿 If not → you may need additional support from a certified practitioner. You can request a complete implant clearing session with one of our certified practitioners.¹

Checking for Contracts

Once the implant is cleared, ask your guides in the Akashic Records:

🌿 “Do I have any karmic contract that allowed this implant to be here?”

If yes, you can move into the **karma clearing process** (see Chapter Fifteen) to dissolve those agreements.

✨ This work is not only about removing what limits us — it is about **restoring the soul to its original innocence and power**. Each implant cleared is a veil lifted, revealing more of who you truly are.
