

The Sacred Opening Prayer: A Key to the Records

The most important tool provided during the initiation process is the Sacred Opening Prayer. This prayer is not just a series of words; it is a vibrational key that activates the connection to the Akashic Records. The words of the prayer carry a specific frequency that helps to elevate our consciousness, allowing us to rise above the noise of the mind and ego and enter the sacred space of the Records.

The prayer works by aligning us with the Divine Presence I Am, the highest expression of our soul and opening our heart to the light and love of the Akasha. As we recite the prayer, our energy field expands, and a column of light descends from the heart of the Akashic Records, connecting with our Tube of Light and anchoring into our heart. This creates a dimensional portal that allows us to access the vast directory of information contained within the Records, as well as the healing energies that flow from the higher dimensions.

Reciting the Sacred Opening Prayer with intention and devotion is essential for opening the Records in a safe and effective way. It ensures that the information we receive comes from the highest source and that we remain protected throughout the process. The prayer also helps to create a space of unconditional love and light, where we can access the Records without fear or interference from lower energies.

The Sacred Opening Prayer:

This prayer is not a command but an offering — a key that awakens the remembrance of our soul's eternal connection with the Akasha. *When you speak this prayer, do not rush. Feel the words as living frequencies — they are not read, they are embodied.*

✨ ***“I ask God (Creator/Source — you may use the name you prefer for the Higher Power) to place a protective shield of Love, Truth, and Harmony around (your full name) permanently, so that only Love, Truth, and Harmony of God (Creator/Source) exist between you and me.***

I ask the Masters, Guides, and Loved Ones of (your full name) to channel through me from where they are, and to share everything they wish in the most precise and understandable way.

I ask the Lords of the Akashic Records to open the Records of (your full name) and grant me all the information that I am allowed to receive.

My records are now open, my records are now open, my records are now open!”

The Role of the Sacred Closing Prayer

Equally important is the Sacred Closing Prayer, which serves to close the Records at the end of a session and bring the work to a gentle and sacred conclusion. This prayer helps to seal the

energy of the session, ensuring that any healing or guidance received is fully integrated and protected. It also helps to ground us back into our physical body, allowing us to return to the present moment with clarity and focus.

Just as the Opening Prayer is a vibrational key to enter the Records, the Closing Prayer is a key to close the Records and release the connection. It helps to ensure that the energy of the session does not linger or interfere with our daily life. By closing the Records with intention, we create a sense of completion and allow the energies to settle and integrate fully.

The Sacred Closing Prayer

✨ ***“I am grateful to the Lords of Akashic Records, Masters, Guides and Loved ones for all the love, information and healing that we have shared and I asked them to close the records of (your full name)***

My records are now closed, my records are now closed, my records are now closed.”

Always close the Records with gratitude, as this seals the exchange in love and honors the sacred connection between your soul and the Akasha.
